

HKIT SECURITY SOLUTIONS LATEST UPDATES IN SECURITY

DECEMBER 2025

INTRODUCTION

At HKIT Security Solutions, we specialize in providing cutting-edge cybersecurity services and data protection strategies tailored for modern digital threats. Our team of experts brings deep technical knowledge, regulatory insight, and industry best practices to secure your infrastructure, applications, and data. From vulnerability assessments and penetration testing to compliance consulting and SOC support, we deliver end-to-end security solutions to organizations of all sizes. With a strong focus on proactive defense and risk mitigation, we empower businesses to stay ahead of evolving cyber threats. Trusted by clients across sectors, HKIT Security is committed to building a safer digital ecosystem.

Need Expert Security Services?

Looking for professional support in strengthening your organization's cybersecurity posture? HKIT Security Solutions offers a full suite of services, including:

- ISO 27001 / 27701 Implementation & Consulting
- Phishing Simulation Services
- Advance Anomaly Detection Services
- Vulnerability Assessment & Penetration Testing (VAPT)
- Security Infrastructure Audits & Gap Analysis
- Data Privacy Compliance (DPDP, GDPR)
- Cybersecurity Policy & Governance Consulting

CYBER CRIMES THIS MONTH

- A 75-year-old woman in Uttar Pradesh lost about ₹2 crore after fraudsters used a “digital arrest” scam, falsely claiming police action unless she transferred funds.
- A couple from Shamli (UP) were arrested for orchestrating a sophisticated Telegram-based cyber fraud that defrauded 41 victims of ₹1.7 crore via fake investments.
- A Noida cyber-crime syndicate was dismantled following an FBI tip-off, with arrests linked to defrauding a U.S. citizen of about \$8.5 million.

- Financial scams like UPI frauds, fake loan apps, and investment schemes continued to be a major pattern in 2025, with losses running into crores of rupees.
- Criminals impersonate police and investigative authorities, use forged digital documents, and extend psychological pressure tactics — making these frauds more prevalent and sophisticated.
- 2025 saw thousands of reports per day to the national Cyber Crime Reporting Portal (NCRP), with millions of complaints across phishing, fraud, extortion, and identity theft.
- Two social media influencers in Hyderabad were booked by police for promoting fake lucky-draw and lottery schemes, collecting UPI registration fees under false promises.

As we close the year, December marked a milestone month for us—defined by leadership interactions, national recognition, global knowledge sharing, and contributions to the cyber security ecosystem.

From prestigious awards to international academic engagements, our leadership continued to drive impact across policy, compliance, cyber defence, and education.

DR. HARSHA AND MRS. GAYATHRI RECOGNIZED FOR OUTSTANDING CONTRIBUTION TO CYBER SECURITY

National Recognition at PEAK 2025 Achievers Awards (Most Important)

PEAK 2025 Achievers Awards – Excellence in Compliance & Cyber Security

A proud milestone as both our Founder and CEO were honoured at the PEAK 2025 Achievers Awards, recognizing outstanding leadership and contribution in their respective domains.

🏆 CEO – Awarded for Excellence in Compliance Leadership

🏆 Founder – Awarded for Outstanding Contribution to Cyber Security

These accolades reinforce our unwavering commitment to regulatory excellence, governance maturity, and cyber resilience, and validate the impact of our work at a national level.

THOUGHT LEADERSHIP AT SIITF 2025 (VARINDIA)

Speaker at the 14th Southern India Information Technology Fair (SIITF)

Our Founder was invited as a speaker at the 14th Southern India Information Technology Fair (SIITF), organized by VARINDIA—one of South India's most prominent technology platforms.

The session addressed:

- Emerging cyber threat landscapes
- Enterprise cyber defence strategies
- Compliance-driven security frameworks
- The future of cyber security in India's digital economy

The event brought together industry leaders, innovators, policymakers, and technology professionals, strengthening our presence as a trusted voice in cyber security.

VIRTUAL GUEST LECTURER AT EAST BRIDGE UNIVERSITY - PARIS

Extending our global reach, our Founder delivered a Guest Lecture at East Bridge University, Paris, focusing on:

Cyber Defence and modern threat models

The role of education in building cyber resilience

Preparing future professionals for global cyber challenges

This engagement highlights our belief that cyber security education is foundational to long-term digital trust and global cooperation.

MEETING WITH SUNIL SHASTRI

Our Founder and CEO had the honour of meeting Sunil Shastri, son of former Prime Minister Lal Bahadur Shastri.

The interaction was enriching and inspiring, centered around ethical leadership, national responsibility, and the role of integrity in shaping sustainable institutions—values that strongly resonate with our organizational ethos.
