October 2025

October Highlights – A Month of Innovation and Impact at HKIT Security Solutions

- HKIT Security Solutions achieved CERT-IN empanelment, marking a major milestone in our cybersecurity journey.
- Panel discussion at CONTX 2025 – Dr. Harsha shared insights on AI, Authenticity & the New Frontier, exploring the balance between technology and creative integrity.
- Motivational session by Dr. Harsha for school students in his hometown, inspiring young minds about cyber awareness and digital responsibility.
- CEO Ms. Gayathri's session at BPCL on Cyber Security for Critical Infrastructure in India received outstanding engagement from leadership and employees.
- Spiritual launch of the Data Protection Officers Association at ISKCON Vadodara — a not-for-profit initiative by the HKIT Group to strengthen India's privacy ecosystem.
- Launch of Story Shield Council (SSC) by HKCS Foundation to safeguard creativity and content integrity across industries.
- Cyber Security Insights by Dr. Harsha – shared best practices on zero-trust architecture, OT security, and emerging AI-driven cyber threats.

Launch of “Data Protection Officers Association” — A Not-for-Profit Initiative

In a spiritually inspiring beginning, HKIT Group launched the “Data Protection Officers (DPO) Association” at ISKCON Vadodara at 10:30 AM. This not-for-profit initiative aims to build a strong professional community for data protection officers, privacy experts, and cybersecurity professionals across India.

The launch ceremony was held in the serene spiritual ambiance of ISKCON, symbolizing purity of intent and service to the greater good. The virtual launch, conducted later in the afternoon, extended participation nationwide — enabling professionals from diverse sectors to join this noble cause.

The DPO Association will serve as a platform for knowledge exchange, policy awareness, and training programs on India’s Digital Personal Data Protection Act (DPDPA) and global privacy standards.

Join the Data Protection Officers Association to connect with privacy experts and stay updated on data protection laws.

Cyber Security Awareness Session for BPCL — Critical Infrastructure Protection

In another key engagement, our CEO, Mrs. Gayathri, addressed the leadership and employees of Bharat Petroleum Corporation Limited (BPCL) on the topic "Cyber Security for Critical Infrastructure in India."

The session covered the rising cyber threats targeting OT (Operational Technology) and Industrial Control Systems, highlighting global incidents, prevention mechanisms, and the need for proactive defense strategies.

Mrs. Gayathri emphasized the critical importance of integrating IT and OT security, conducting regular risk assessments, and building a security-aware culture among employees. The session was widely appreciated for its practical insights and industry relevance, reinforcing HKIT's commitment to protecting India's industrial backbone.

HKIT Joins Panel at CONTX 2025 – AI, Authenticity & The New Frontier

We're delighted to share that Dr. Harsha E Thennarasu, Chief IT & Cyber Security Advisor at HKIT, will be part of a distinguished panel discussion at CONTX 2025, hosted at Jio World Convention Centre, Mumbai, on 15 October 2025.

The session, titled "AI, Authenticity & the New Frontier," will explore one of today's most pressing challenges: How can content creators harness AI's potential without compromising trust or creative integrity?

Moderated by Bernard D'sa (Founder, Raindrops Books), the panel includes industry experts Vijayakumar Nadar (Head of Engineering – AI, NeevCloud), Moses Philip (Director – Business Development, TransPerfect), Dr. Harsha E Thennarasu (HKIT Security Solutions), and Varaprasad J V (Founder, Great Guns Films Corp).

We welcome all CISOs and DPOs to join this pivotal session and gain insights from industry stalwarts.

Inspiring Young Minds — Dr. Harsha's Motivational Session

As part of our community outreach initiatives, Dr. Harsha E. Thennarasu, Chief Cyber Defense Advisor at HKIT, conducted a motivational session for students in his hometown school. The session aimed to inspire the next generation with lessons on discipline, determination, and digital awareness.

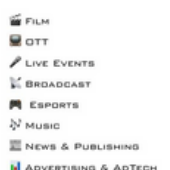

Dr. Harsha encouraged students to embrace technology responsibly, focus on continuous learning, and contribute positively to society. His engaging session served as a reminder that true leadership begins with empowering youth — and that cybersecurity is as much about people as it is about technology.

Launch of Story Shield Council (SSC) – Protecting Creativity Across Industries

The Story Shield Council (SSC), a not-for-profit initiative by the HKCS Foundation, was launched in October to protect creative integrity across diverse industries such as film, OTT, music, esports, publishing, and advertising. With the belief that “Everything is a story. We protect them all,” SSC aims to safeguard originality, prevent content misuse, and promote ethical storytelling. This initiative marks a significant step by HKCSF in fostering a global community that values and defends creativity in all its forms.

October was a month of innovation, recognition, and contribution — continuing our mission to make cyberspace safer and more resilient for all.
